

# Did you know?

**Your child's school has access to thousands of wonderful stories and educational titles through Listening Books!**

SEND students, and those with mental health conditions such as anxiety or depression, can access a fantastic range of audiobooks, both at school and at home. Titles available include set texts, study guides, fiction and non-fiction.

If your child has enjoyed the Listening Challenge and you would like them to keep listening to our audiobooks at school, please talk to their teacher.

**Audiobooks can improve children's reading skills, enjoyment of books, emotional intelligence and wellbeing. \***

To learn more about the benefits of audio for your child, please visit [listening-books.org.uk](https://listening-books.org.uk).
